CANADIAN TECHNICAL SECURITY CONFERENCE (CTSC 2009)

Time is running out to register for the 4th Annual Canadian Technical Security Conference (CTSC 2009) to be held at the Mississauga Convention Centre (MCC) located in Mississauga Ontario Canada. The CTSC 2009 conference event is based on a three (3) day format consisting of seminars, workshops, a competitive "Bug Off" and industry product demonstrations.

Complimentary lunches and refreshment breaks are provided throughout the conference with a dinner and awards ceremony on Day 2 of the conference. CTSC 2009 centers on a higher level of professional development training than ever before while continuing to provide extensive networking opportunities with industry manufacturers, distributors and professional service providers.

The dates for the 4th annual Canadian Technical Security Conference (CTSC 2009) have been confirmed at the Mississauga Convention Centre (MCC) and are scheduled for Monday April 27th, Tuesday April 28th and Thursday April 29th 2009. As you likely aware; organizing an event such as CTSC 2009 is a huge undertaking with many details and arrangements which require enormous amounts of time.

In order to provide the best possible event we need to have many of the scheduling and registration requirements completed within a certain time frame and with this in mind we are asking for your co-operation in planning for your participation well in advance of the conference dates.

Whether you are attending as a speaker, exhibitor or delegate we require the necessary details and information by pre-determined dates. We have changed the registration process this year by including additional early registration dates with greater discounts than we have offered before.

You will find information for Speakers, Presenters and related seminar submissions, exhibitor and delegate registration as well as advertising and financial sponsorship opportunities.

Please review the information and contact us with your registration details before the published due dates. Last year we had many seminars submitted that were too late to be considered due to limited space. All seminar and exhibitor booths will be selected strictly on a first come first served basis so act now to ensure your place at CTSC 2009 is reserved.

As the CTSC conference event continues to grow, your participation and input becomes more and more vital to a successful event. With the official launch of the Canadian Technical Security Professional Association (CTSPA) many of the functions and management of the conference will fall under the CTSPA conference committee. CTSPA members will have the opportunity to become involved with the development and management of future conference events.

For more information about the Canadian Technical Security Conference (CTSC) and the Canadian Technical Security Professional Association (CTSPA) you can visit www.pdtg.ca and simply follow the CTSC 2009 and CTSPA links.

PARTICIPANT REGISTRATION

Participant registration is now open for the Canadian Technical Security Conference (CTSC 2009). Please register as soon as possible in order to take advantage of our early registration fees.

Payable to: **Professional Development TSCM Group Inc.**

Early Participant Registration: Before Monday February 2nd, 2009

\$495.00 + \$24.75 (GST) = \$519.75

Advance participant registration: Before Monday March 30th, 2009

\$595.00 + \$29.75 (GST) = \$624.75

Late participant registration: After Monday March 30th, 2009

\$649.00 + \$32.45 (GST) = \$681.45

Registration for this year's event includes:

1. Three (3) full days of seminars, workshops, and industry product demonstrations.
2. Lunch and refreshment breaks each day of the conference.
3. Complimentary coffee, water and soft drinks throughout the conference.
4. Dinner and awards night on the 2nd day of the conference.

All information regarding participant registration including registration forms can be found by visiting the CTSC 2009 Web Site at www.pdtg.ca

SPEAKERS AND PRESENTERS

The 2009 CTSC event committee is accepting seminar submissions for both CTSC 2009 and CTSC 2010. Don't miss this opportunity to share your knowledge and expertise.

We are looking for a wide variety of informative technical and non-technical presentations that transcend all aspects of the TSCM industry with a focus on current and emerging technology, best recommended practices, and challenges facing TSCM practitioners.

We also welcome industry related product demonstration seminars. Presentations may be designed and developed for any level of experience, from the fundamental basics, to intermediate and advanced topics. Presentations must be of a technical (or relevant non-technical) subject matter or nature and relevant to TSCM and Technical Security (TS) practitioners.

CTSC 2009 participants are primarily TSCM professionals from the private sector, government, military, consultants, engineers, and law enforcement professionals. Past CTSC conference events have commanded an impressive list of participants from across Canada, the United States, Mexico, Belgium, and Israel.

All submissions are to be made electronically and are will be reviewed immediately following the deadline of submissions for this year's event. Notifications will be sent directly to the email address listed for the speaker. It is strongly recommended your initial interest and actual submissions as requested, be forwarded to the CTSC 2009 Committee as early as possible. There are a limited number of spots available and will be selected on a first come first served basis (pending the approval by the CTSC 2009 conference committee).

SUBMISSION GUIDELINES

We offer the following basic submission guidelines to assist speakers and presenters. All submissions must be forwarded to the CTSC 2009 committee by the posted submission deadline (unless time slots are still available after the deadline).

Presentations must be submitted and delivered in English. During future conferences it may be possible to provide simultaneous translation services for languages other than English. Presentations should describe and be based on the presenters original work. An individual may submit one (1) or more presentations for consideration.

An individual may submit more than one (1) presentation to be delivered during multiple sessions; however, the presentations must not be the same.

PRESENTATION REQUIREMENTS

The CTSC 2009 committee requires the following details to be submitted along with the presentation abstract. Speakers and Presenters attend the conference at our guests and do not need to pay or register as a participant.

1. Name of the Presenter
2. Full Contact Information
3. Personal BIO (150 words or less)
4. Title of the Proposed Presentation
5. Brief Description of the Presentation (75 words)
6. Professional Development Level (Fundamental, Intermediate, Advanced)
7. Session Delivery Time (60 or 120 minutes)
8. Presentation Summary (50 words)
9. Presentation Abstract Text (limited to 250 words)
10. Presentation Equipment Required: Laptop, LCD Data Projector, DVD, VHS, Audio Capability (Speakers)

Please submit your proposal in Microsoft Word or Adobe (PDF) file format (if possible) or contact the CTSC for other acceptable file formats and submit via email to pdturner@pdtg.ca for review.

Final decisions for all seminars submitted will be made and confirmations sent to speakers and presenters by Monday February 2nd, 2009.

All information regarding speakers and presentations can be found by visiting the CTSC 2009 Web Site at www.pdtg.ca or by contacting pdturner@pdtg.ca at any time.

EXHIBITOR REGISTRATION

There are a limited number of first rate (10 x 10) exhibit (booth) spaces available during the 2009 Canadian Technical Security Conference (CTSC). The exhibit area is located in the main event hall and provides an excellent informal environment for marketing your products and services.

The main event hall is the focal point of all participants during the conference. This is an important element of the CTSC event and provides an excellent opportunity to market TSCM professional services, private investigation and security organizations, physical security and access control, specialized test equipment, TSCM equipment manufacturers, and other technical security related products and services to a qualified Technical Security (TS) industry audience.

Registering early is highly recommended as the available space is limited. Exhibitors that require power for displays or equipment must indicate power requirements on the exhibitor registration form. Please note that an additional fee will apply if power requirements exceed 750 Watts.

1. Each exhibit booth includes a draped table and two (2) chairs.
2. All exhibitors will receive a free listing on the CTSC web site.
3. Includes a maximum of two (2) exhibitors working the booth.

EXHIBITOR REGISTRATION FEE

Payable to: **Professional Development TSCM Group Inc.**

Early Exhibitor Registration: Before Monday February 1st, 2009

\$1,450.00 + \$72.50 (GST) = \$1,522.50

Early Exhibitor Registration: Before Monday March 30th, 2009

\$1,850.00 + \$92.50 (GST) = \$1,942.50

NOTE: Final Deadline for Registration is Monday March 30th 2009. No exhibitor registrations will be accepted after this date (unless space is still available).

All information regarding Exhibitor opportunities can be found by visiting the CTSC 2000 Web Site at www.pdtg.ca or by contacting pdtturner@pdtg.ca at any time.

ADVERTISING OPPORTUNITIES

Maximize your impact of your presence at the conference by taking advantage of the various marketing opportunities.

Whether you are interested in our advertising opportunities or becoming an official corporate sponsor, the CTSC has developed a cost effective approach to promoting your organization and furthering the aims, goals, and objectives of the conference. Corporate sponsorship opportunities to boost your corporate image:

LEVEL I SPONSORSHIP

1. \$250.00
2. Includes a business card size ad in our CTSC 2009 conference guide.
3. Signage and announcements during the conference.
